Delivering Solutions at Mission Speed

In Health, Technology, Research, and Consulting we offer you capability to meet mission requirements and needs. Our innovation culture means we always find answers to any problem.

Founded in 2015 & headquartered in Baltimore, MD, 4S -Silversword is an innovation- focused 8(a) small business under the Nā 'Ōiwi Kāne Native Hawaiian Organization (NHO). Our operating model combines large organizational stability, capability, and over 30+ years of IT, professional services and program management experience with small business flexibility, agility, and customer focus. Leveraging decades of hands on experience and documented exceptional performance from our management team, 4S - Silversword is proud to successfully compete for, win, and execute your large business contracts and small agility focused opportunities alike.

Our success is based largely on our innovative approach to meeting public sector mission needs and our ability to quickly adapt and respond to customer requirements and desires. We provide the technical expertise to develop essential solutions, along with the mature management processes, and individual leadership characteristics necessary to deliver quality work against cost, schedule, and performance objectives.

Why Choose 4S?

Working with 4S brings you:

- A Small Disadvantaged Business (SDB) with the stability, capability, and experience of a large organization.
- Simplified acquisition via:
 - OASIS 8(a) Pool 1
 - SBA Certified Native Hawaiian Organization (NHO) owned 8(a) (Up to a \$100 Million Sole Source threshold in the DoD and VA).
 - SBA Certified HUBZone Firm.
- A global organization with locations to strategically serve our customers (AL, CA, CO, D.C., HI, IL, MD, NY, NM, TX, VA).
- NAICS 541511 (Primary), 541611. R&D SBIR NAICS 541330. HealthCare NAICS 621111, 621340, 621999
- Our Integrated Management System implements ISO 9001, 20000-1, 27001 - certified corporate-wide processes and procedure, our accounting system and rate structure are DCAA certified, and our \$8M line of credit with Synovus bank provides operational stability.

Our Services

Technology Solutions Division

We leverage agile software development practices and our DevSecOps pipeline to rapidly design, develop, secure, test and deploy solutions that our mission focused clients need to compete on a global stage. We lean far forward on technology, leading efforts in Artificial Intelligence/Machine Learning/Robotic Process Automation, Cloud Migration, and late binding modular architectures. Reach out to our VP TSD, James Hagerty (hagerty@4s-llc.com).

Expert Services Division

Our Expert Services Division provides strategic management consulting, acquisition policy support, technical project management, and facilities planning. Reach out to our ESD Manager, Wellington Lee (lee@4s-llc.com).

Allied Health Practice

We provide health care, health care management, occupational health and industrial hygiene services to deliver positive health outcomes for our service members, our veterans, their families, and the public. Reach out to our AHP Lead, Sheila Jackson (sheila.jackson@4s-llc.com).

Applied Physics Group

Our physicists, engineers and technologists are building the future of communication and sensors. Our patented Free Space Optical communications system is the new state of the art, and our deep optics experience allows us to innovate rapidly in the technology space. Reach out to our APG Lead, William Ziegler (ziegler@4s-llc.com).
